

# Curriculum Overview

---

Term: Summer 1

Year: 1

The Year Team:

---

Miss Allan, Head of Year, 1JA

Miss Bell, 1JA

Miss Jones, 1KJ

Miss Kennedy, 1MW

Other adults working with us:

---

Mrs Wilshere, Read Write Inc Teacher

Mrs Fogg, Read Write Inc Teacher

Mrs Chittock, Read Write Inc Teacher

Miss Larkin, Read Write Inc Teacher

Mrs Ramen, Read Write Inc Teacher

## English/Literacy

Each morning the children will attend their Read Write Inc sessions with their Read Write Inc teacher, developing their knowledge of phonics to learn to read and write about a variety of engaging topics. We will be working on different target sounds each week enabling the children to blend and segment when they read. Children will also have a daily phonics session with their class teacher where we will be developing their phonological knowledge to ensure that they are confident readers and are 'Reading by 6'. With phonics screening coming up, we will have a large emphasis on ensuring all children know all their sounds and can read them in real, and nonsense words. We will send home a weekly phonics sound sheet.

**Writing:** As part of our Read Write Inc program, the children will have the opportunity to extend their ability to write and edit sentences and short texts. The children will have writing sessions everyday linked to our IPC and Science topics, where children will orally rehearse and develop their ideas and write from a range of stimuli such as: poetry, information texts, instructions and story telling linked to our topics other areas of the curriculum. Once a week we also have a 'Big Write' session where children have an extended period to write independently. We also teach handwriting daily in order to develop children's fine motor skills and cursive script to aid writing fluency.

**Spelling** Spellings will link to the Read Write Inc program where the children will learn and practice different sounds and words from their weekly focus book, culminating in a spelling test of ten words each Thursday. **These spellings are set for your child's appropriate level and children learn, practise and apply them in their daily Read Write Inc sessions and then practise them at home; it is therefore an expectation that children get most spellings correct in the test each week.**

## Mathematics

We will start the half term by deepening our learning of addition and subtraction. We will continue to focus on being able to add 1 digit and 2 digit numbers confidently using the 'regrouping into tens and ones' strategy. Children will also continue using the 'part, part, whole' method. We will continue to use a range of vocabulary linked to addition and subtraction, and encourage the children to use it in their learning. We focus on subtraction and continue to develop the children's understanding of subtraction and addition as inverse operations. We will continue to count backwards on number lines and use hundred squares to 'take away' 10 from a two-digit number.

We will also cover multiplication again during this half term. The children will continue to group objects in even groups and arrange objects into arrays- using this to multiply. They solve multiplication problems by way of repeated addition. We will continue to link division to multiplication facts by way of number families and related number facts. Children will understand that division is the inverse of multiplication.

We will also be deepening our knowledge of money. We will ensure that we know the values of coins and notes, and apply this knowledge within our addition and subtraction unit.

We will continue to start every day with a 'Morning Maths Meeting' in their classes beginning at 8.45am. They will be refining their mental maths strategies by applying them to all areas of their maths learning in a speedy and active way!

## Science

### Seasonal Changes

This term, children will be exploring how the weather changes in different seasons. Children will observe the changes that take place and describe weather that is linked to the seasons. Children will be exploring how the day length varies and will be taking part in experiments to investigate different types of weather. They will discuss the timeline of seasons and months and will start to explore how plants are affected.

## PE

**Outdoor PE-** Group and team games, athletic activities such as running, throwing and jumping.

**Indoor PE-** Agility based activities.

## ICT

ICT is integrated throughout the curriculum at Larkwood. We use a range of apps on the iPads to support teaching and learning. We will use the iPads or ICT computer suite once per week, and this will be linked to our learning in another area of the curriculum. We will also be completing a 'coding' session where we will be using the computer to use Espresso Coding. E-safety is a large focus during our ICT sessions at Larkwood, and we always start each ICT session with an e-safety starter so children are safe on computers, tablets and the internet at home and in school.

## Music

In music this term we will continue to use Charanga to learn new songs and raps. Charanga allows us to access a range of musical styles and work these into our learning. We will be using our voice, body and instruments to create our own music and style.

## School visits & community links

School visit letters to be sent home.

# Home / School Partnership

## Homework

*(All homework will be given out on a Friday and should be returned on a Wednesday please)*

- Literacy/topic based activity
- Spellings linked to Read Write Inc weekly focus
- Daily reading
- Numeracy or 'MyMaths'
- Fine motor skills/handwriting practice

## Extended Schools Activities/Clubs for Year

- Club-letters will be sent home when it is time to rotate the children attending clubs

***For further information about these clubs please contact the school office or review our website***

## Parent Support

Help: Supporting children in their learning involves creating a strong partnership between parents, children and teachers and maintaining it. If you feel that you can help the Year 1 team to better support your child please feel free to contact your class teacher anytime and we will be very happy to speak to you. In addition, the Year 1 team would be grateful for any ideas, suggestions, and resources or time that you are able to offer. Thank you for taking the time to read this.

### Resources:

MyMaths, Lexia, Home Learning Zone, My Book Blog

### Skills/Opportunities:

We would also value any contribution if you have interests of expertise linked to our Science/IPC topics.

**Please contact your class teacher or the school office if you would like further information**
